

March 3, 2000

In our February 25th "RR News from DNR" we announced expected changes to Wisconsin Administrative Code NR 140, Groundwater Quality. New groundwater standards for toluene and xylene were expected to be printed and effective on March 1. However, the rule will not be printed on March 1, and the changes are now expected to become effective April first. Please contact Steve Karklins in the Bureau of Drinking Water and Groundwater at 608-266-5240 if you have questions.
